I. DECLARATION

O.PAVANKUMAR IB.COM(C.A) hereby solemnly to affairs and declares that all the information and particular furnished here by me are true/correct to the best of my knowledge. I further declare that the by through me confirms/ shall confirm to the Drink Safe Water then people to take of pure water during eating purpose and other purposes

DATE:

O.PAVANKUMAR

SIGNATURE OF THE STUDENT

2. ACKNOWLEDGEMENT

I would like to express my special thank of a gratitude MR.SIVA RAMI REDDY well as our principal Dr.Purushottam who gave me the golden opportunity do this by a wonderful project the Food Habits which also helped me in doing to a lot of research and am came to know about really thankfully to them.

Yours Obediently,
O.PAVANKUMAR

I year B.COM C.A

244030851057

3.1 INTRODUCTION

Agricultural technology, commonly known as **Agri-Tech**, refers to the use of technology and innovation to improve the efficiency, productivity, and sustainability of agricultural practices. In recent years, **Farmer Agri-Tech** has emerged as a powerful tool to transform traditional farming methods by integrating advanced solutions such as **Internet of Things (IoT), artificial intelligence (AI), drones, remote sensing, mobile applications, and precision farming tools.**

With the growing global demand for food and increasing challenges such as climate change, labor shortages, and limited arable land, **Farmer Agri-Tech provides smart solutions** that help farmers make data-driven decisions, reduce waste, optimize resource use, and increase crop yields. Whether it's through **automated irrigation systems, real-time crop monitoring, soil health analysis, or marketplace platforms**, technology is bridging the gap between farmers and modern agriculture.

4. FARMER AGRI-TECH

By empowering farmers with accessible and affordable tech-driven tools, Agri-Tech is not only increasing farm profitability but also contributing to **food security, sustainable agriculture, and rural development.**

Would you like this tailored to a specific region, technology type, or audience (e.g., investors, students, government stakeholders)?

5. SCOPE OF STUDY

Safe drinking water isn't a commodity but a necessary building block for securing the future of an at-risk child. A child who does not have safe access to clean water is a more vulnerable target for trafficking. Until clean water is secure in the world of an at-risk child, nothing else is secure. SOS creates custom water solutions for communities. When it comes to water, one size does not fit all. That's why we respond with custom solutions that meet the needs of each community we work in. These solutions included drilling new wells, refurbishing existing wells, installing water filtration units, providing emergency water tankers and more.

6. SURVEY ABOUT FARMER AGRI-TECH:

SURVEY : - 1

- Panchayat/Nagar Panchayat / Municipality/Municipal Corporation Patur
- Ward No 11190160
- Street Name Arundhtiwada
- House/Door No 6/15
- Name of the Head of the Household Obili sekhar
- Gender Male
- Number of Family Members 5
- Category SC
- Religion Hindu
- Language Known Telugu
- Primary Occupation of the Head of the Household Agriculture
- Annually Household Income < 100000
- Source of Income Farming
- Do you own Agricultural Land? Yes
- Type of House Pucca
- Ownership of House Owned
- Access to Drinking Water Tap
- Source of Cooking Fuel LPG
- Availability of Electricity Yes
- Number of Literates in the Family 1
- Highest Educational Qualification in the Household Graduate
- Distance to Primary Health Care Center 1-2 km
- Are all children vaccinated as per immunization schedule? Yes
- Are you a beneficiary of any government schemes? Yes
- If yes, specify the schemes Rythu bandhu
- Do you have a Ration Card? Yes
- Accessibility to Internet Yes
- Mode of Transport On Foot
- Distance to the nearest government school <1 KM
- Distance to the nearest college >5 KM
- What improvements do you wish to see in your village? (Select all that apply) Roads, Schools
- What is the source of Irrigation? Paddy
- What is your primary type of farming? Crop Farming
- What is the size of your farmland? Less than 2 acres
- What is your primary source of income? Farming alone
- How long have you been engaged in farming? Less than 5 Years
- Name the crops you cultivate? Paddy
- Whether using Green Manure Seed or not? Yes
- Whether Soil Sampling done or not ? Yes
- Whether the farmer is having awareness on crop insurance or not ? Yes
- Whether the farmer is availing services from the local Rythu Seva Kendralu? Yes
- Whether the farmer is having awareness on different government schemes like Annadatha Sukhibava, Subsidy on Farm Mechanization etc.? Yes
- How would you rate the overall farming conditions in your area? Very Favorable

SURVEY :- 2

- Panchayat/Nagar Panchayat / Municipality/Municipal Corporation Patur
- Ward No 11190160

Awareness

healthy meal consist of macronutrients with enough proportion of calories.

We should all eat healthy food every day.

Healthy food gives us a happy life.

★ So, we create awareness among students in this area. Now students get the power to make right choice to select their healthy food.

Avoiding processed foods.

★ Eat home cooked meals as much as possible.

Read the nutrition labels of food people you buy. Eating food patterns to be not to watching mobile or t.v.

In the eating pattern stop to eat any of the item.

Conclusion

Their astounding conclusion is that water treatment reduces all cause under-five mortality by around 25%. They also analysed cost data from Dispensers for Safe Water and estimate that the number of DAiLYs averted per dollar is more than 45 times greater than the WHO's threshold for "highly cost effective" interventions. This puts water treatment in a similar company to micronutrient interventions, insecticide-treated malaria bed nets, and routine childhood vaccinations in terms of their impact on child health.

Internal Evaluation for the Community Service Project

Objectives:

- To facilitate an understanding of the issues that confront the vulnerable/marginalized sections of society.
- To initiate team processes with the student groups for societal change.
- To provide students an opportunity to familiarize themselves with the urban / Rural community they live in.
- To enable students to engage in the development of the community.
- To plan activities based on the focused groups.
- To know the ways of transforming society through systematic programme implementation.

Assessment Model:

- There shall only be internal evaluation.
- The Faculty Guide assigned is in-charge of the learning activities of the students and for the comprehensive and continuous assessment of the students.
- The assessment is to be conducted for 100 marks.
- The number of credits assigned is 4. Later the marks shall be converted into grades and grade points to include finally in the SGPA and CGPA.
- The weightings shall be:
 - Activity Log 20 marks
 - Community Service Project Implementation 30 marks
 - Mini Project Work 25 marks
 - Oral Presentation 25 marks
- Activity Log is the record of the day-to-day activities. The Activity Log is assessed on an individual basis, thus allowing for individual members within groups to be assessed this way. The assessment will take into consideration the individual student's involvement in the assigned work.
- While evaluating the student's Activity Log, the following shall be considered-
 - a. The individual student's effort and commitment.
 - b. The originality and quality of the work produced by the individual student.
 - c. The student's integration and co-operation with the work assigned.
 - d. The completeness of the Activity Log.
- The assessment for the Community Service Project implementation shall include the following components and based on Weekly Reports and **Outcomes Description**.
Details of the Socio-Economic Survey of the village/habitation.
 - a. Problems identified.
 - b. Community Awareness Programs organized.
 - c. Suggested Short-Term and Long-Term Action Plan.
