Brief report :

- "Clean and green" refers to a world where the environment is healthy and people can live productive lives. It's about reducing pollution, conserving natural resources, and adapting to climate change. Green on the other hand has a direct link to promoting good health. Literally a green environment means abundance of trees and greenery. Trees are instrumental in purifying air by absorbing the dangerous gases and giving out Oxygen.
- In part of Swachh Bharat programme, Dept of zoology conducted a clean and green programme on 03-08-24 at our college premises.
- 39 students (III BZC and II year Zoology Honors) were participated in this programme. The students removed the plastic, waste materials and other unnecessary weed from the college premises. This programme helps to the students to maintain the cleanliness of their surroundings.
- Faculty of zoology Dr. N. Chandra Mohan, B. Sujatha and other staff members were participated in this programme.

Students removed the plastic and other waste materials from the college premises.
