

GDC Rajampeta, Annamayya Dt.
Department of Zoology
Activities 2025-26

1. Name of the Activity	Medical Camp - Free Eye Check up
2. Name of the Lecturer	Dr. N. Chandra Mohan & B. Sujatha
3. Date	04-08-2025
4. Number of students participated	102
5. Number of faculty involved	25

6. Aim & Objectives –

- To aware the students about eye problems
- To aware the students about eye diseases
- To check the staff & students vision power
- To know the students visible power.

Brief report -

- Dept. Of zoology has conducted an **Eye checkup medical camp (Free)** for staff and students on **04-08-2025** by **Dr. Agarwals eye hospital, Rajampeta**, Annamayya Dt.
- Eyes are crucial for experiencing the world around us, making them vital for daily life, learning, and overall well-being. Eye problems, ranging from minor irritations to serious conditions like cataracts and glaucoma, can significantly impact vision and quality of life. Regular eye exams are essential for early detection and treatment of these issues, preventing potential vision loss and maintaining overall health.

Importance of Eyes:

- Eyes are our primary source of information about the world, enabling us to see, learn, and interact with our surroundings.
- Good vision is essential for tasks like reading, writing, driving, and participating in work and school.
- Eye exams can reveal early signs of systemic conditions like diabetes and high blood pressure, allowing for timely intervention.
- Conditions like nearsightedness, farsightedness, and astigmatism can be easily corrected with glasses or contacts.
- **Cataracts:** Clouding of the lens, leading to blurred vision, is common with age and treatable with surgery.
- **Glaucoma:** A disease that damages the optic nerve, potentially leading to blindness if left untreated.
- **Diabetic Retinopathy:** A complication of diabetes that damages blood vessels in the retina, causing vision loss.
- **Age-Related Macular Degeneration (AMD):** Affects central vision, making it difficult to see fine details.
- **Other Conditions:** Dry eye, conjunctivitis, and eye injuries can also affect vision and eye

health.

- Why Eye Care is Important: Regular eye exams can identify eye problems in their early stages, when treatment is often most effective.
- Early detection and treatment of conditions like glaucoma and diabetic retinopathy can help prevent blindness.
- Eye exams can reveal signs of systemic diseases that may not yet be causing noticeable symptoms.
- Good vision is essential for many daily activities, helping people maintain their independence and quality of life.
- Improved Learning and Productivity:
 - Good vision contributes to academic success and workplace performance.

Results -

- The staff of Agarwals eye hospital, Rajampeta, Sri. NVS Manikanta, Senior Optometrist, Sri.K. Mohan Krishna Reddy, Store Manager and Sri N. Balaji, Business development officer checked the staff and students eyes and has given suggestions for different problem persons.
- They also conducted Ishihara color plate test for detecting color blindness. No more students donot have colorblindness.
- Many students having normal vision.
- Some students are facing with short-sightedness and long-sightedness.
- The senior optometrist Sri. K. Mohan Krishna Reddy suggested wearing spectacles to the students suffering with vision power.
- They also suggested the eye problem students, to recheck the eyes with eye specialist and take medicines or eye quality glasses.

Speech by principal sir and staff of Agarwals hospital

Principal sir has checked his eye problems
